DPI Teleconnect, Inc.  
Petition for Finding of Public  
Convenience and Necessity to  
Provide Service as a Local  
Exchange Carrier

**ORDER GRANTING AUTHORITY  
TO PROVIDE LOCAL EXCHANGE  
SERVICE AS A RESELLER  
AND APPROVING SCHEDULE  
OF RATES AND TERMS  
AND CONDITIONS**

WELCH, Chairman; NUGENT and DIAMOND, Commissioners

---

In this Order, the Commission grants DPI Teleconnect, Inc. (DPI Teleconnect) the authority to provide competitive local exchange service as a reseller in the State of Maine, and approves the Company's Terms and Conditions and Rate Schedules. We also exempt DPI Teleconnect from the requirements of Chapter 210, *Uniform System of Accounts*, and of 35-A M.R.S.A. §§ 707 and 708, subject to the conditions described below.

**I. APPROVAL OF APPLICATION TO SERVE**

On June 30, 1998, pursuant to 35-A M.R.S.A. §§ 2102 and 2105, DPI Teleconnect filed a petition with the Commission requesting authority to provide local exchange service in Maine. 35-A M.R.S.A. § 2105 requires us to find that the public convenience and necessity require another utility to serve where another utility is already authorized or is providing the same or similar service, before we grant approval under section 2102 for an additional public utility to provide service.

47 U.S.C. § 253(a), enacted by the Telecommunications Act of 1996, states:

(a) In General. No State or local statute or regulation, or other State or local legal requirement, may prohibit or have the effect of prohibiting the ability of any entity to provide any interstate or intrastate telecommunication service.

47 U.S.C. § 253(b) states, however:

(b) State Regulatory Authority. Nothing in this section shall affect the ability of a State to impose, on a competitively neutral basis and consistent with section 254, requirements necessary to preserve and advance universal service, protect the public safety and welfare, ensure the continued

---

quality of telecommunications services, and safeguard the rights of consumers.

We find that granting DPI Teleconnect the authority to provide local exchange as a reseller in Maine will not impede the preservation or advancement of the public interest goals or policies stated in section 253(b).

DPI Teleconnect's application provides reasonable information indicating that its financial and management capabilities are adequate to provide local and facilities-based interexchange services in Maine.

## **II. SERVICE TERRITORY**

DPI Teleconnect has requested authority to provide local exchange service throughout the state. It states that it will offer service only as a reseller of local exchange service provided by other LECs in that area. We define local resale as the offering of local exchange service purchased from another CLEC pursuant to 47 U.S.C. § 251(b)(1) or from an ILEC at a wholesale discount pursuant to 47 U.S.C. § 251(c)(4). The purchase of unbundled network elements from an incumbent local exchange carrier and their use in providing local exchange service is facilities-based service and not resale. DPI Teleconnect's authority to provide local exchange service is limited to resale unless it obtains further authorization from the Commission.

DPI Teleconnect's proposed Rates, Terms and Conditions, which we approve today, also limit its local exchange service offerings to resold services. If DPI Teleconnect wishes to expand the scope of its authority in the future to provide facilities-based switched local exchange services, it shall seek approval pursuant to 35-A M.R.S.A. § 2102, requesting the Commission to amend this Order. DPI Teleconnect shall simultaneously file amended Rates, Terms and Conditions pursuant to 35-A M.R.S.A. § 307 that state its service territory for facilities-based local exchange service. That service territory shall be limited to those areas in which will be ready to provide facilities-based switched local exchange service within a reasonable period of time. The application shall include information establishing that readiness. It is not necessary for a competitive local exchange carrier (CLEC) with existing authority to present a full application in order to request additional service territory authority. The Commission will act expeditiously on any such application and revisions of Terms and Conditions.

## **III. APPROVAL OF TERMS AND CONDITIONS AND RATE SCHEDULES**

We allow the terms and conditions proposed by DPI Teleconnect to go into effect. DPI Teleconnect did not use the Commission's expedited process for approval, which includes standard terms and conditions that comply with Maine law and the Commission's Rules. We have not reviewed the Company's Terms and Conditions and

Rate Schedules. If there is any conflict between a provision in DPI Teleconnect 's terms and conditions and the Commission's Rules or a statute, the rule or statute will control. Included in the Terms and Conditions are pages stating that in the event of such a conflict, the statute or the Commission's Rule will control.

In general, the Commission believes that a competitive telecommunications market results in services and rates that benefit the public. We believe that the acceptability of DPI Teleconnect 's services and rates in the market place provides an adequate test of the reasonableness of the Company's rates. Accordingly, we allow the rates proposed by DPI Teleconnect to go into effect.

#### **IV. INTERCONNECTION AGREEMENT(S)**

In order to provide local exchange service, a competitive local exchange carrier must, as a practical matter, obtain an interconnection agreement with the ILEC(s) providing service in any area where it intends to provide service. In the absence of such an agreement, it will not be possible for DPI Teleconnect's customers to call customers of the ILEC(s), and vice versa. Interconnection agreements are governed by 47 U.S.C. § 252, and must be approved by this Commission.

If a competitive local exchange carrier (CLEC) makes a bona fide request for an interconnection agreement with an ILEC that is a "rural telephone company" as defined in 47 U.S.C. § 153(37), the "rural exemption" of 47 U.S.C. § 251(f) will apply. All of Maine's independent telephone companies are "rural telephone companies." A rural telephone company is not required to negotiate an interconnection agreement or provide interconnection until after the Commission, pursuant to 47 U.S.C. § 251(f)(1)(B), finds that the requirement "is not unduly economically burdensome, is technically feasible, and is consistent with [the universal service provisions of] section 254 . . . ."

On March 30, 1999, in Docket No. 99-161, the Commission approved an agreement between DPI Teleconnect and New England Telephone and Telegraph Company d/b/a Bell Atlantic - Maine pursuant to 47 U.S.C. § 252. As a condition of providing local exchange service, DPI Teleconnect must comply with the terms of any interconnection agreements that it has reached with any ILECs and that have been approved by the Commission.

#### **V. WAIVERS; REPORTING REQUIREMENTS**

As a condition of providing local exchange service, DPI Teleconnect must comply with the terms of any applicable Commission orders or rules that may govern local interconnection and compensation for interconnection. DPI Teleconnect shall also comply with any applicable Commission Rules or orders that govern universal service, public safety and welfare, service quality and consumer rights.

Pursuant to sections 11(A) and 12(A) of Chapter 280, DPI Teleconnect is exempt from Chapter 210 of the Commission's Rules, which governs telephone utility accounting and annual financial reports, and from 35-A M.R.S.A. §§ 707 and 708, which govern approvals for reorganizations and contracts with affiliated interests, related to DPI Teleconnect's interexchange carrier activities. Although DPI Teleconnect has not requested a waiver from the requirements of Chapter 210, or from 35-A M.R.S.A. §§ 707 and 708, the Commission has the authority to grant such waivers on its own motion. Because DPI Teleconnect's rates and operations are likely to be subject to market forces, we do not see any present need to subject the Company to those requirements.

However, the Company must report its annual intrastate gross operating revenues, its revenues derived from sales to other carriers, and its annual intrastate minutes for use for the purpose of determining its regulatory assessment.<sup>1</sup> If DPI Teleconnect resells service to other switched or switchless telephone service providers, the Company must maintain its records so that it may separately identify those sales.

Pursuant to Chapter 280, § 11(B), DPI Teleconnect shall maintain records sufficient to identify and to allow auditing of traffic volumes, intrastate interexchange billings for both retail and wholesale services, and all information that is necessary to calculate access or interconnection charges in accordance with this Chapter. Those records shall be maintained for a minimum of 2 calendar years.

The exemptions from the affiliated interest approval requirements of 35-A M.R.S.A. §§ 707 and 708 granted by Chapter 280, § 12(A) is subject to the notice requirements contained in Chapter 280, §§ 12(B) and (C) and in the ordering paragraphs below.

In addition, DPI Teleconnect shall inform the Commission of any changes to its corporate structure and ownership and of any changes in the name under which it does business, as set forth in the ordering paragraphs below. If necessary, it shall also refile its rate schedules and terms and conditions to reflect its new identity.

## **VII. OTHER REQUIREMENTS**

---

<sup>1</sup>The Commission mails the annual reporting forms to carriers in January of each year. The completed forms are due by April 1 of each year.

DPI Teleconnect shall comply with all applicable rules of the Commission and statutes of the State of Maine, including the customer notification rule described in the ordering paragraphs below.

## **VIII. ORDERING PARAGRAPHS**

1. Grant, pursuant to 35-A M.R.S.A. §§ 2102 and 2105, the request of DPI Teleconnect, Inc. to provide competitive local exchange telephone service as a reseller in the State of Maine;

5. Exempt DPI Teleconnect, Inc. from approval requirements of 35-A M.R.S.A. §§ 707 and 708, but DPI Teleconnect, Inc. shall provide notice to the Commission of any reorganization, as defined in 35-A M.R.S.A. § 707(1)(A), that results in a merger, sale or transfer of a controlling interest of DPI Teleconnect, Inc. or of any entity that owns more than 50% of DPI Teleconnect, Inc. The notice required by this subsection shall be filed within 10 days following any reorganization described herein, as required by Chapter 280, § 12(B). As required by Chapter 280, § 12(C), DPI Teleconnect, Inc. shall also provide notice of any other changes in the name under which it does business (d/b/a), any change of the location of its business office, and change of its contact person. DPI Teleconnect, Inc. shall provide the Administrative Director of the Commission with notice of any of the changes described within 30 days following the change. If necessary, DPI Teleconnect, Inc. shall amend its rate schedules and terms and conditions to reflect any change in identity; and

6. Order that DPI Teleconnect, Inc. shall comply with all applicable rules of the Commission, including the requirement of Chapter 280 § 10 that interexchange carriers provide notice to all affected customers of an increase to any rate that is greater than 20% to all affected customers.
